

CU Code
4275-002Employer
Classification**Painting of Structures**

Status

Compulsory under Schedule 1

Scope

Business activities include painting large-scale structures other than buildings. These structures include bridges, overpasses, storage tanks, and other large industrial equipment and machinery. Incidental activities include preparatory work such as sandblasting and waterblasting.

Also included here is the spraying of fibreglass or other anti-corrosive materials on exhaust stacks and storage tanks.

[Also included is cleaning the exteriors of buildings and dwellings, and the cleaning of large-scale industrial equipment, machinery, and structures such as blast furnaces, when completed by sandblasting.](#)

Note

For information on classifying construction work by contract, see the section titled "Classification of Construction Activities" in The Classification Scheme, document 14-01-01, located in the *Operational Policy Manual* and in the Reference section of this Manual.
