Classification

Other Repair Services

Status

Compulsory under Schedule 1

Scope

Business activities include custom repair services which are not elsewhere classified.

This includes

- cutlery sharpening
- gunsmithing
- harness repair
- key duplicating
- lawn mower sharpening
- locksmithing
- saw sharpening
- scissor sharpening
- small engine repair (including lawn mowers, and outboard motors not in conjunction with a marina operation).

Included here is minor repair work to chips or cracks in windshields without replacing the glass, except when carried out as part of an operation that installs or replaces motor vehicle windshields and windows.

Also included here is custom welding services such as

- acetylene welding service
- blacksmith service
- brazing (welding) service
- electric welding service
- repair work, welding
- welding shops.

Also included here are custom on-site welding and mobile welding services.

The supply of a certified welder is classified in this CU.

Excluded is:

- the high-precision repair or refinishing of moulds using the TIG (tungsten inert gas) welding process
- welding services provided by contractors operating at site of construction (see G-737-03 Other Trade Work).

Classification**Other Repair Services**

Also included is the repair of office and store furniture and equipment, such as workstations, desks, non-stationary cabinets, and portable partitions or non-stationary display cases.

Also included is the specialized repair of small, portable motor vehicle or industrial combustion components such as

- carburetors
- diesel injection systems
- gas injectors
- turbo chargers.

Excluded from this category are garages performing general or specialized repairs on motor vehicles or their components.

Note

The on-site repair of stationary office and store fixtures such as counter tops and display cases is included in G-723-02, Industrial, Commercial, and Institutional Construction.

In the supply of labour industry, the agency supplying and paying the worker, not the employer to whom the worker is supplied, is responsible for covering the agency's workers under the Workplace Safety and Insurance Act.

These workers perform a variety of functions that are normally

- part of the day-to-day operations, and
- usually carried out by permanent staff

of the employer to whom they are supplied.

The activity of the worker, not the business activity of the employer to whom the worker is supplied determines the classification of the worker's earnings.

All workers supplied are compulsorily covered under Schedule 1 even if

- the work activity they carry out, or
- the business activity of the employer to whom they are supplied

is not covered according to the "Status" line of the relevant CU in the ECM.

All business activities carried out underground for the mining industry are considered mining activities and must be classified in the appropriate Class B - Mining CU.

For information on classifying construction work by contract, see the section titled "Classification of Construction Activities" in The Classification Scheme, document 14-01-01, located in the Operational Policy Manual and in the Reference section of this Manual.
